

TOP OF THE MOUNTAIN

You're always here, You understand
You're always with me wherever I am
Talk about my friends, or anything I want
Got to remember my blessings

Chorus #1:

I'm coming up to the top of the mountain
I'm coming up to the top of the hill
Sometimes I got to pray, sometimes I got to talk to
My very Best Friend, you know His love will carry me through
It always will, it always will

He'll take me in, no matter what
That's what they call unconditional love
Sometimes I stray, but I have learned
He's always been there but I have returned

Chorus #2:

I'm coming up to the top of the mountain
I'm coming up to the top of the hill
Sometimes I got to pray, sometimes I got to listen
To my very Best Friend, you know His live will carry me through
It always will, it always will

Sometimes I'm weak, no matter how I try
He'll make you a beautiful mountain inside
You can rise above, you can overcome
I of myself can do nothing
